Zoning Hearing Plans Distribution (Case # Z2006000089)

Aviation Planning Division Review Comments

Airspace Review:

A proposed project height was not given with the application; however assumed 50 ft structures at the southeast corner of SW 197th Ave and SW 296th St conform to County Ordinance. An FAA Airspace Determination is required for any structure higher than 125 ft. See below for filing information.

This height determination is an estimate issued on a preliminary or advisory basis. Any structure or construction cranes for this project exceeding 125 ft will be required to file with the FAA by using form 7460-1 'Notice of Proposed Construction Alteration for Determination of Known Hazards'. This form should be sent with a 45 day advance notice prior to raising the crane. The form is available through this office or through the FAA website: <http://oeaaa.faa.gov> and clicking on the "forms" link.

This form should be mailed to:

Federal Aviation Administration
Air Traffic Airspace Branch - ASW-520
2601 Meacham Blvd, Ft. Worth, TX 76137-0520

Alternatively, you may "e-file" online at: <https://oeaaa.faa.gov>

This determination is based, in part, on the description provided to us by you, which includes specific building locations and heights. Any changes in building locations/layouts or heights will void this determination. Any future construction or alteration, including an increase to heights requires separate notice to the FAA and the Miami-Dade Aviation Department.

Should you have any questions, or in obtaining and/or filling out FAA form 7460-1 you may contact Mr. José A. Ramos, Chief of Aviation Planning at 305-876-8080.
